Dear Sir:

You have reached the Electronic Comment Filing System public assistance =
email box. We provide support to users of the said system. If you wish to =
submit comments for RM-10352, go to this URL [http://gullfoss2.fcc.gov/cgi-b=
in/websql/prod/ecfs/upload_v2.hts](http://gullfoss2.fcc.gov/cgi-bin/in/websql/prod/ecfs/upload_v2.hts) and complete the cover sheet. Then you =
will be able to either type in your comments or attach a document with =
your comments. Also, you can submit comments via our email program. The =
form and instructions are located at this location [http://www.fcc.gov/e-fil=
e/email.html](http://www.fcc.gov/e-file-e/email.html). Finally, the ECFS User Manual ([http://www.fcc.gov/e-file/ecf=
smanual.html](http://www.fcc.gov/e-file/ecf-smanual.html)) provides step-by-step instructions.

For immediate assistance, please feel free to contact the Help Desk at =
202-418-0193. Thank you.

RM-10352 160 meter mode specified subbands: I am not really a 160 meter =
user yet but getting ready to operate there and i feel mode specified =
subbands is a good idea or you get unnecessary arguments and since bands =
are not really controlled any longer at least this would make sense>

RM-10354 Novice privledges: I am not in favor of anymore give aways to =
novice or lesser class licensees! i had to earn what i have and i wasn't =
found of all the studing and exams involved but i wanted it ,i respect it, =
and i earned it! today everybody wants all for nothing! enough giveaways =
please! lets maintain some sort of control here or its just another cb =
band plan! you have already reduced code, not going to eliminate it! =
bottom line all the animals have been sold, barns on fire, if you do any =
more giveaways sell the farm!

RM-10355 Space station broadcasts: i see no problem with this , its =

educational and maybe if brought into schools might help spark interest in =
right direction.

hope ths helps ? had to say my piece...tnx AA1BQ=20
